

NAVYA BHATIA

Business Analytics • Data Analytics • Technology Consulting • AI & Machine Learning
San Francisco Bay Area | (408) 614-8986 | navya.bhatia@gmail.com | linkedin.com/in/navya-bhatia-b25b26228

Business Analytics graduate student experienced building predictive models and interactive dashboards that turn raw data into decisions, with a foundation in statistical analysis and stakeholder-facing delivery. Skilled across the full analytics workflow, from data cleaning and modeling to clear, actionable reporting. Seeking Business Analytics, Data Analytics, or Data Science roles where I can apply strong technical and analytical strengths.

EDUCATION

Santa Clara University - Leavey School of Business

September 2025-December 2026

M.S. in Business Analytics | Santa Clara, CA

University of Oregon - College of Arts and Sciences

June 2025

B.A. in Business, Economics & Society | *Minor in Media Studies* | Eugene, OR

Member, Women in Business Organization; Mixed Student Union

RELEVANT PROJECTS

EY - Business Analyst Practicum Project

- Built an AI/ML multi-layer claims-analytics solution that flagged high-risk denials pre-submission, applying predictive modeling across historical claims data to surface patterns behind denials and target recoverable reimbursements for the client before claims left the pipeline.
- Delivered interactive Streamlit dashboards that translated complex claims data into clear, real-time visuals, reducing manual claims review time and giving EY stakeholders on-demand visibility into the top denial drivers to guide process improvements and prioritization decisions.

Moonlift - AI Fitness Platform

- Designed an AI-powered fitness platform that generates personalized workout recommendations by synthesizing multiple inputs, including recovery status, individual preferences, weekly schedules, and menstrual cycle phase, into a single adaptive training plan tailored to each user.

Sales Forecasting & Predictive Analytics Showdown

- Developed an XGBoost forecasting model that incorporated seasonality, promotion, and ad-spend signals, engineering features and tuning model parameters to lift forecast accuracy by 89.2% versus baseline, earning **2nd place** at the SCU Leavey School of Business Analytics Showdown.

Wine Quality Prediction - Machine Learning

- Trained and benchmarked multiple machine learning models across 6,400+ samples, evaluating trade-offs in accuracy and interpretability before selecting a Random Forest model ($R^2 = 0.49$) that enables automated wine-quality scoring instead of manual evaluation.

TECHNICAL SKILLS

Analytics & Machine Learning: Predictive Modeling, Pandas, NumPy, Seaborn, Scikit-learn, XGBoost, Data Visualization

Programming & Databases: Python, R, SQL

AI & Digital Solutions: Generative AI, LLMs, Prompt Engineering, RAG, Streamlit

Tools & Platforms: Tableau, Excel, Microsoft Office, Google Workspace, Aplos, Mailchimp

Professional: Analytical & Problem Solving, Communication, Collaboration, Leadership, Event Planning, Digital Marketing

WORK EXPERIENCE

EnActs Arts - Social Media Marketing Intern

June - August 2023

Sunnyvale, CA

- Managed and ran multi-channel content campaigns across the organization's social platforms, planning and publishing consistent promotional content that increased audience engagement and reach.
- Analyzed platform performance and coordinated cross-functional marketing strategies for events and educational initiatives, using Aplos and Excel to import data, remove duplicates, and organize records while strengthening content, attendance, and brand engagement.

LEADERSHIP EXPERIENCE

Leland High School - Assistant Tennis Coach

June - September 2022

San Jose, CA

- Coached a roster of 18 players through structured training plans tailored to individual skill levels, running drills targeting stroke mechanics and footwork.

San Jose Public Library - Reading Buddies Manager

June - August 2019

San Jose, CA

- Founded and scaled a children's reading program from the ground up, improving early-literacy engagement among 50+ participating children.
